

Title : Mushroom Cultivation and its post-harvest management.

Objective:

- To enhance skills in mushroom cultivation through theoretical and practical sessions.
- To create awareness about the environmental and economic benefits of mushroom cultivation as a sustainable agricultural practice.

Context:

The workshop aimed to provide participants with practical knowledge and hands-on experience in mushroom cultivation, covering key aspects from substrate preparation to harvesting.

The practice:

Equip participants with the knowledge needed to start and manage their own mushroom cultivation projects.

Evidence of Success:

- The knowledge of participants has improved.
- Better understanding various aspects of the nature, and environment.

Report

Date: 7th Jan 2023

Time: 23/12/22 to 07/01/23

Topic: Mushroom Cultivation

Place: GDRCSST, Bhilai

A Mushroom Cultivation Workshop was conducted at GD Rungta College of Science and Technology, Bhilai for non-teaching staff and group four staff of the institution. The workshop aimed to provide participants with practical knowledge and hands-on experience in mushroom cultivation, covering key aspects from substrate preparation to harvesting. The Mushroom Cultivation Workshop proved to be a valuable learning experience, successfully achieving its objectives of skill development and promoting sustainable agricultural practices. Participants left with not only theoretical knowledge but also the practical skills needed to embark on mushroom cultivation projects.
